

## TECHNICAL DATA

- Diameter: 74 mm / 2,91"
- Height: 145 mm / 5,71"
- Weight: 52 g / 0,11 lbs

## MATERIALS

- Body: Reinforced polyamide.
- Elastic insert: Weather-resistant thermoplastic rubber.

## FEATURES

### CUSTOM RACE

It's the first bottle cage that self-adjusts along the diameter of the bottle.

It's design, materials and functionalities are what makes it ideal for use with soft or hard plastic bottles.

### NEW PATENTED DESIGN

The very accurate and dynamic design features a **wide range of colors** ideal for all bicycles. Elite offers the cyclist a versatile and elegant bottle cage, without compromising the excellent and reliable performances.

### SELF-ADJUSTING GRIP SYSTEM

The front elastomer insert allows the bottle cage to self-adjust along the diameter of the bottle.

### EASY AND ERGONOMIC INSERTION AND EXTRACTION OF THE BOTTLE

Its exclusive shape and the front self-adjusting rubber shim always allows for easy insertion and extraction of the bottle, thus ensuring that it's easy and safe to use, so there are no distractions while cycling. Inserting and extracting the bottle **can be done both towards the axis of the bicycle and towards its two sides.**

### IDEAL FOR THE LATEST GENERATIONS BICYCLES

Also ideal for slooping frames (with smaller central triangle).

### MAX COMFORT

The front elastomer rubber ensures the **total absence of vibrations** that may bother cyclists during a race.

### HIGH BOTTLE HOLDING CAPACITY

The new design, with its front structure enveloping the bottle also in its upper part, makes it possible to optimize its holding capacity under any circumstance, such as high speed descents, off-road or rough roads.
