**Instructions for washing:**

**FEATURES**

The Elite **Dry Mat** is a handy tool for indoor cycling enthusiasts. It offers superior resistance, grip, and protection for your floors, while the **removable terry cloth section** ensures that your setup stays dry and comfortable during your workouts. Its detachable feature makes it **easy to clean and maintain**, making it a practical and convenient choice for indoor cycling workouts. Thanks to its sound-absorbing materials, the **Dry Mat** is able to reduce the vibrations and noise generated during your workout.

**RESISTANCE AND GRIP. WITH DETACHABLE SECTION**

This new training mat is a specially designed floor mat that you can place under your smart trainer and bike for indoor cycling workouts. The **foam rubber section** offers **resistance and grip** to keep your smart trainer in place during intense workouts.

The foam rubber material is durable, easy to clean and maintain, and offers excellent **protection for your floors** against sweat and debris in the area most prone to perspiration, specifically the area beneath the bike. This section is made with **sound-absorbing materials** that effectively reduce both the vibration and noise levels produced during your workout.

The **removable section** is made with **cotton terry cloth**, a material that effectively absorbs sweat and moisture during your workout. The two modules can be easily connected or separated using three convenient Velcro straps, making the attachment and removal for washing and drying after workouts incredibly straightforward and intuitive.

#### COMPACT FOOTPRINT WHEN STORED

Additionally, the main section of the **Dry Mat** features a pair of **velcro bands** designed to neatly roll up the mat after use, making it compact for storage.

#### DURABLE MATERIALS

The Elite **Dry Mat** is made from high-quality materials that are not only durable but also easy to maintain.

The **foam rubber section** of the mat is made from a combination of rubber and **Spenco™** cloth in black color.

**Spenco™ cloth** is a type of material that provides additional cushioning and comfort, making it perfect for use in a training mat. The hard part is designed to provide resistance and grip, ensuring that your smart trainer stays **securely in place** during your workout. The rubber material is also easy to clean by simply wiping it down with a damp cloth after your workout.

The detachable part consists primarily of pure cotton, known for its exceptional absorbency. This section can easily be **removed and washed** in the washing machine, making it easy to keep clean and hygienic. After washing, the cloth section can be air-dried or put in the dryer for added convenience.

The Elite **Dry Mat** is an **excellent addition** to any indoor cycling setup, providing superior protection and comfort during your workouts.
