

**ELITE**

# FOLDABLE TRAINING MAT

elite-it.com

## TECHNICAL DATA

- Size: 1800 x 900 mm / 70,87" x 35,43"
- Weight: 2,6 kg / 5,51 lbs

## MATERIALS

- Main material: PVC.

## FEATURES

The new **indoor cycling mat** with a **foldable design** that saves space after every session.

Unlike roll-up mats, it **folds into three sections lengthwise and once across**, so storage and transport are effortless. Made from **durable materials with a non-slip surface**, it keeps your setup stable and comfortable—offering the same protection as the iconic Training Mat, with smarter space management.

## FOLDABLE AND SPACE-SAVING

The **Foldable Training Mat** is designed to simplify your space. Pre-shaped fold lines let you **tri-fold lengthwise and fold once across**, reducing bulk quickly and neatly. You get the familiar robustness and performance of the classic Training Mat, with extra focus on functionality.

## ALWAYS WITH YOU

Its **compact folded size makes transport easy**—move it between rooms or take it on the road with minimal fuss.

## PROTECTS FLOORS AND IMPROVES SMART-TRAINER STABILITY

Made from high-quality materials, the mat offers **maximum grip** for your **smart trainer** and bike even during intense efforts, helping **prevent slip, damping vibrations, and protecting floors** from scratches, scuffs, and sweat.

## BUILT FOR EVERYDAY USE

Designed to last: the surface resists wear and **wipes clean** with a damp cloth and mild detergent—ideal for daily training with **smart trainers and rollers**.

## MODERN, EYE-CATCHING LOOK

Beyond function, Elite's **foldable design** comes with a clean aesthetic that fits any training space. The brand's **signature bright red** adds a modern, distinctive touch.

## THE TEAMS' CHOICE

Elite cycling mats are widely used by **indoor riders and WorldTour teams** to set up reliable workout areas at home and before races.

## THE INDOOR CYCLING MAT

The **Foldable Training Mat** is compatible with all **smart trainers and rollers, except Elite Quick Motion and Nero**.
