

## TECHNICAL DATA

- Capacity: 500 ml / 16,90 oz
- Total height: 220 mm / 8,66"
- Width: 100 mm x 50 mm / 3,93"x1,97"
- Total weight:  
88,4 g / 0,19 lbs  
(bottle cage 26,4 g / 0,058 lbs +  
bottle 62 g / 0,14 lbs)

## MATERIALS

- Bottle cage: PA + Carbon fiber.
- Bottle: bottle body in food-grade polyethylene; cap in food-grade polypropylene and food-grade thermoplastic rubber.

## BOTTLE FEATURES

### THE PERFECT KIT FOR TIME TRIALS AND TRIATHLONS

The **Kit Crono CX Carbon 2024** is a bottle and bottle cage kit designed to ensure **the best possible aerodynamic properties**, perfect for **triathlons** and **time trials** races. Very light due to its reinforced, highly resistant **Made in Italy carbon fiber**, the **Kit Crono CX Carbon 2024** is **WorldTour teams'** most widely used aerodynamic bottle and bottle cage gear.

WIND TUNNEL DESIGNED AND TESTED

Multiple **wind tunnel tests** while designing it made it possible to streamline all surfaces in order to get excellent aerodynamic results. The exclusive, specifically developed bottle and bottle cage system makes it **safe and stable** to hold the bottle even during fast and intense courses, such as time trials.

### MADE IN ITALY CARBON BOTTLE CAGE

The **Kit Crono CX Carbon 2024** bottle cage is made in a monocoque reinforced structure with **highly resistant Made in Italy carbon fiber**. Carbon fiber ensures the max possible breaking loads tension and at the same time extreme lightness. The bottle cage adds no unnecessary weight while cycling, as it only weighs 26,4 g.

### AERODYNAMIC FINISH

The **Kit Crono CX Carbon 2024** bottle features a **speed-effect finish**, perfect to improve aerodynamic penetration while cycling. It's no surprise that it's one of the most used by pro triathletes and most of WorldTour teams.

### SPORTS CAP FOR ABUNDANT LIQUID FLOW

**Ergonomic designed cap** for easy, sure grip. Ideal for multi-sport use as it features a **soft rubber push-pull valve** to ensure it's easy to open and close and offer a high rate of liquid flow.

TOTALLY ERGONOMIC

The bottle and cap design makes it easy to quickly quench your thirst **under any circumstance**.

### SQUEEZABLE

A feature of the soft bottle body that allows for **easy liquid flow**.

### FOOD SAFETY

Bottle complies with **EC and FDA** regulations for food contact materials.

### BPA FREE

Bottle materials are **totally BPA free** (Bisphenol-A).
