

TECHNICAL DATA

- **Top tube protection length:**
430 mm / 16,93"
- **Total length:**
840 mm / 33,07"
- **Width:** 250 mm / 9,84"
- **Maximum stretched elastic length:**
1000 mm / 39,37"
- For all bike frames

MATERIALS

- SBR, Polyester, NBR, Nylon(PA 6)

FEATURES

Protec Plus is Elite's iconic **sweat protection for the frame**, designed for use during indoor training sessions.

Compatible with **all frame types**, even in different sizes, thanks to its **compact structure** that ensures **essential and immediate coverage** when training on a **trainer**.

The **high-absorbency technical fabric** blocks sweat to protect the bike's most exposed and delicate areas.

Easy to secure using the adjustable central strap and rear fastening. Installs quickly and **does not interfere with pedaling**.

Hand washing is recommended to preserve material performance.

TARGETED FRAME PROTECTION

Protec Plus is designed to protect the **bike frame** from the corrosive effects of sweat during indoor sessions, leaving the **handlebar free** for a natural, unobstructed riding position.

COMPATIBLE WITH ALL FRAMES

Its compact shape adapts easily to both **road and MTB frames**, even in varying sizes, offering effective coverage of exposed areas **without interfering with pedaling**.

HIGH-ABSORBENCY TECHNICAL FABRIC

Made with **high-capacity absorbent material**, **Protec Plus** prevents sweat from reaching sensitive parts of the frame, helping to reduce **wear and corrosion** over time.

SIMPLE, STABLE FASTENING

With an **adjustable central strap** and **rear closure**, installation is quick, stable and intuitive — ideal for frequent training.

MAXIMUM EASE OF USE

Protec Plus applies in seconds and stays firmly in place during training, without restricting leg movement or rider posture.

EASY MAINTENANCE

Hand washing is recommended to maintain the technical properties of the materials. Avoid tumble drying and ironing.
