legislation requirements.

MATERIALS

- Aluminium and PA6

FEATURES

IDEAL FOR ALL BICYCLES

Elite offers a wide range of alternatives to transport your bicycle on the roof of your car, among which the **Sanremo 40** bicycle carrier, an evolution of the Sanremo 10.

This bicycle carrier, whose name celebrates the **40 years from Elite's founding**, is ideal to safely transport pretty much all bicycles on the roof of your car: it comes **pre-assembled**, features a sturdy **aluminium** body to ensure it's **light** and practical thanks to the **fast fixing system**.

PRE-ASSEMBLED

As with all Elite's roof bicycle carrier, the components on the **Sanremo 40** are supplied pre-assembled. This is what makes it easy and intuitive to setup the bicycle carrier on the roof bars of your car.

It only takes a few simple steps to lock in the front fork and the rear wheel of the bicycle

TOTAL COMPATIBILITY

Very versatile, the **Sanremo 40** roof bicycle carrier is compatible with most bicycles with thru-axle with diameter up to 12 x 100 mm / 0,47" x 3,93" and with bicycles with disc brakes thanks to the wide range of wheelbase adjustment between front and rear wheel (up to 520 mm / 20,47").

Sanremo 40 is compatible with any profile of roof bicycle carriers with max size 80 x 50 mm / 3,15" x 1,97" (base x height).

SAFETY FIRST

The **Sanremo 40** roof bicycle carrier, compact and easy to use, features an ultra-resistant aluminium body with fast fixing system. Always remember to observe traffic rules and speed limits when using a bicycle carrier and never exceed the 110 km/h - 68.35 Mph max speed limit.

It is advisable to always check your bicycle fixing after the first few km.

Moreover, while driving it is fundamental to be mindful of your car's total height with your bicycle on the roof.
