

TECHNICAL DATA

- Weight front support: 1188 g / 2,62 lbs
Weight rear support: 338 g / 0,74 lbs
- Dimension front support:
140 x 100 x 100 mm / 5,51" x 3,94" x 3,94"
- Dimension rear support:
180 x 185 x 110 mm / 7,09" x 7,28" x 4,33"

MATERIALS

- Body: Aluminum.

BOTTLE FEATURES

Sanremo Race Lock, compact and easy to use, features an **ultra-resistant aluminium body with quick clamping system**.

When using **Sanremo Race Lock** please make sure **never to exceed the 110 km/h - 68.35 Mph** speed limit and to always observe the rules of the road and speed limit.

It is always **recommended to check on the bike** after the first few kilometers.

Moreover, it is fundamental to consider the total height of the vehicle when the bike is installed on top of it.

By using the Elite adapter (not included) you can install front forks with thru-axle.

As with all bike carriers, components are preassembled so installing the **Sanremo Race Lock**, compatible with most roof bars (80 x 50 mm / 3,15" x 1,97"), is very easy.

Sanremo Race Lock is compatible with bars of any shape having a standard symmetrical profile.

Just a few simple moves to lock on the front fork and the rear wheel a bike.

Sanremo Race Lock is compatible with most forks both for road bikes (even carbon ones) and mountain bikes (even with disc brakes).

The locking system for the bike is practical, **safe and adjustable** based on your needs, thanks to the **wide wheelbase adjustment between front and rear wheel (up to 610 mm / 24,01")**.
