

TECHNICAL DATA

- Diameter: 65 to 80 mm / 2,56" to 3,15"
- Total height: 145 mm / 5,71"
- Weight: 34 g / 0,075 lbs

MATERIALS

- High-strength fiber-reinforced material.
Product obtained through injection molding with a polymer matrix material.

FEATURES

Struka is the new bottle cage by Elite that features an innovative **micrometric adjustment system**, allowing you to **adapt the fit of the bottle cage** to different sizes of bottles and containers. Its versatility ensures a **secure and sturdy grip** for all your cycling adventures, accommodating bottles of varying dimensions. In addition to offering precise adjustment, **Struka** is designed to provide **maximum durability with its steel wire**, all while maintaining an optimal lightweight design, **weighing in at just 34 g / 0,075 lbs.** Experience maximum comfort and top-notch performance with Struka.

MICROMETRIC ADJUSTMENT FOR A PERFECT BOTTLE FIT

Struka is equipped with a **micrometric adjustment system** that allows you to perfectly fit it to the size of your preferred bottle or liquid container. Regardless of the diameter, you can achieve a secure and stable fit with this innovative mechanism. Specifically, **Struka** can accommodate bottles ranging **from 65 mm / 2,56"** in diameter, such as the classic 500ml PET bottles, **up to 80 mm / 3,15"**, well beyond the standard dimensions of commercially available sports bottles. Adapt it to your personal preferences and hydration needs during your thrilling cycling escapades.

SIMPLICITY AND CONVENIENCE WITH THE FITGO MECHANISM

Adjusting the cage is easier than ever with the **Fitgo mechanism**, consisting of a **turning knob** positioned at the front of the cage. Just turn the knob clockwise to **narrow the insertion hole** and achieve a secure fit. To activate the **opening mechanism**, a simple counterclockwise rotation is all it takes. Experience effortless bottle handling with Struka's design.

ROBUST AND DURABLE: STEEL WIRE FOR UNPARALLELED LONGEVITY

The structure of the bottle cage is designed to provide **strength and resilience** in every situation. Made with glass fiber-reinforced polyamide, **Struka** can withstand stress and impact even in the most extreme cycling conditions. The **steel wire** of the locking mechanism is also designed to ensure an extremely long product life, even during **gravel rides** or **mountain biking races**.

OPTIMAL LIGHTWEIGHT FOR UNCOMPROMISING PERFORMANCE

Despite its robust and durable structure, **Struka** is an **incredibly lightweight** bottle cage, weighing only **34 g / 0,075 lbs.** It is ideal for taking full advantage of all its features without adding extra weight to your bike.
