

## DATI TECNICI

- Diameter: 74 mm / 2,91"
- Height: 147,5 mm / 5,81"
- Weight: 29,3 g / 0,065 lbs

## MATERIALS

- **T-Race** is an injection moulding bottlecage made in polymer matrix composite material reinforced with fibreglass

## FEATURES

**T-Race** is Elite's new **soft touch bottlecage** designed to make it **easier to insert and remove the bottle from all sides** during races.

Made in highly resistant fibre-reinforced material, it's great on the road but also with **mountain bikes** or over **gravel tracks** as it ensures great retention and resistance over any terrain.

### EASY INSERTION

**T-Race** is Elite's bottlecage made in cooperation with Adriano Design - its placement and design shape the letter "T" (as in Time Trial) on the side of the bicycle's frame.

A one-piece item with soft touch finishing, **T-Race** is designed to ensure any bottle's **ease**

**of insertion** from all sides thanks to its wide snap-fit opening, which also makes it easy to remove the bottle on bicycles with smaller or sloping frames.

### MAX BOTTLE RETENTION UNDER ANY CIRCUMSTANCE

The fact that it's very easy to insert and extract doesn't mean that it can't be **highly retentive**. The structure of the **T-Race** plays a part in **keeping the bottle body firmly in place**, both on its high and low sections when the bottle is in the bottlecage, so there's total retention even when facing bumps and shocks of particularly bumpy roads, as for instance on gravel tracks or mountain courses.

### GREAT RESISTANCE

**Lightness and mechanical resistance** are the main features of Elite bottlecages made in certified fibre-reinforced material (FRP), which contributes in ensuring high performances but also great bottle retention on bumpy roads - plus a long life cycle.

### LIGHT

Weighing just **a little more than 29 g**, this bottlecage adds no useless weight on your bicycle and yet retains high retention and resistance performances.

### FOR ALL FRAMES

Available in **6 visually striking colors** thanks to its **soft touch finishing**, **T-Race** is distinguished by an elegant and modern racing-style design, ideal for all frames..

### FOR ALL BOTTLES

With its **74 mm diameter**, **T-Race** accomodates all commercially available standard-sized bottles.
