

## TECHNICAL DATA

- External dimensions:  
1200 x 800 x 340 mm / 47,24" x 31,50" x 13,38"
- Useful internal dimensions:  
1150 x 750 x 325 mm / 47,25" x 29,52" x 12,79"
- Weight: ±18,5 Kg / 40,78 lbs  
(without accessories)

## MATERIALS

- Double walled outer shell: Polythene.
- Dense foam inners: Polyurethane.
- Replaceable wheels: Polythene and polyurethane.
- Hinges: Galvanised steel.
- Locks: Galvanised steel with covering in plastic material.
- Screws: Galvanised steel.
- Nuts: Galvanised steel.
- Straps: Nylon

## FEATURES

### COLORS

Grey scratch-resistant shell with Elite logo; red components.

### DESIGN

Thanks to its shape, Vaison is suitable for large road bikes and mountain bikes, with

suspension and disc brakes, having frame sizes up to 620 mm / 24,40".

### BICYCLE PROTECTION

The unique, **super-tough, double walled polythene construction provides protection from external forces.**

**Internal strap system stabilises the bike, while the 3 thick foam inner panels keeps everything in place to prevent scratching and movement of parts.**

Depending on needs, **even just one foam panel can be used**, thereby minimising the final weight

### INSERTING THE BICYCLE

The bicycle is particularly easy to put in the case thanks to the hinges which allow 180° opening of the two outer shells.

### SECURITY

Four tough, lockable latches ensure secure closure.

### HANDLING

Two handles located on the sides of the Vaison for easy lifting and transport. Protected wheels to aid manoeuvring.
